

The I Want Natural Story • Bill's Story

Co-Founder Bill Larson and son, Alex

Co-Founder Bill Larson suffers from Multiple Sclerosis, Fibromyalgia and Degenerative Disk Disease. As if the pain from these conditions wasn't bad enough, the side effects from the pain medications were worse. Bill was taking 24 pills a day and his quality of life was rapidly declining.

That's when Bill and his friends, Co-founders Dennis and Becca Sauer said enough was enough. Together, they were on a mission to get Bill's life back. They had to find a way to manage the pain naturally - with a combination of essential oils and all-natural ingredients.

Dennis, a retired Marine and Drill Instructor, used his natural-born leadership skills to execute a plan of action. He tapped his resources, pulled people from the community, set up a lab, and got to work. Failure was not an option.

Bill's role in this amazing effort was to use his brilliant scientific mind to create formulas that worked. He had become doctor and patient, scientist and test subject. Who better to fill that role? No one.

After two years of trial and error, relentless determination, collaboration, research, and testing, they came up with a winning formula in an all-natural pain relief lotion. Bill is no longer taking opioids and suffering the side effects. Bill manages his pain with all-natural remedies. The mission was to get Bill his life back. Mission Accomplished. Help us help others by sharing Bill's story!

Pain Relieving Lotion

Our Pain Relieving Lotion Is 100% Natural, Safe, and Effective for Alleviating Acute and Chronic Pain

Pain & Inflammation Relief Benefits

Our Pain Relieving Lotion is the cornerstone of I Want Natural. It's non-toxic and has been proven safe and effective by members of our Armed Forces and everyday people in varying degrees of pain.

Calming Effects & Cumulative Benefits

Several key ingredients in our lotion also provide a soothing and calming effect on the mind and muscles, which in turn helps to provide relief. In addition to the amazing pain relieving aspects of our lotion, it also provides a great deal of inflammation relief.

According to the *New York Times*, the opioid crisis has killed more people than guns or car accidents in 2016, and the pace of deaths is rising faster than HIV at its peak. That is insane.

The time to act is NOW. Please help share the love and improve lives. Thank you from all of us at **I Want Natural!**

Help Us Reduce These Statistics

Drug overdoses were the leading cause of death for Americans under 50 as of August 2017.

The average woman puts 515 synthetic chemicals on her body every day and 60% of what we put on our skin is absorbed into our bodies.
